

PRODUCT DATA SHEET

ATV TRAIL MINERAL 4T ENGINE OIL

ATV Trail Mineral 4T Engine Oil is specifically engineered with Bel-Ray's *Rust Defense System (RDS)* to meet the demands of recreational and utility All Terrain Vehicles (ATVs). The high temperatures, severe loads and rugged duty of ATVs require the exceptional rust protection, film strength, shear and temperature stability of **ATV Trail Mineral 4T Engine Oil**.

Applications

- ◆ Recommended for single- and multi-cylinder single passenger and side-by-side ATVs
- ◆ Equally suitable for air-cooled or liquid-cooled engines
- ◆ Also makes an excellent store-and-go oil for ATVs and motorcycles during the off-season

Features and Benefits

- ◆ Unsurpassed corrosion and rust protection Bel-Ray's *Rust Defense System (RDS)* protects engines from moisture contamination caused by running through streams and bogs or frequent short-trip service.
- ◆ Superior anti-wear Exclusive Bel-Ray anti-wear chemistry reduces valve-train wear and keeps pistons and rings from scuffing.
- ◆ Low volatility base oils Minimizes oil consumption.
- ◆ Superior deposit control Cleans deposits. Controls sludge and varnish formations for cleaner and cooler running engines.

General Description

ATV Trail Mineral 4T Engine Oil is a premium multi-grade 4-stroke motor oil that delivers unsurpassed engine protection from moisture contamination often found in ATVs in recreational and utility service. Specific Bel-Ray anti-wear chemistry means engines last longer and are more reliable. **ATV Trail Mineral 4T Engine Oil** provides deposit control and oxidation and shear stability for long oil and engine service life.
